

Turn Your Debit Card on or Off

In the event your debit card is ever misplaced or stolen, you can take immediate control of the situation by turning your card off with the touch of a button*. Once you have turned your card off, we won't allow purchases or withdrawals to occur. If it turns out to be a false alarm, you can turn your card back on just as easily and resume using your card right away.

***In your mobile banking app select CARD CONTROLS, select the card you wish to turn off and DISABLE IT! Then to make it active again select CARD CONTROLS, select the card you wish to turn on and MAKE IT ACTIVE AGAIN!**
